Ali Sina's response to Mr. Abu Saleh of Islam Australia Network Part 4

What is the meaning of:

> If you want to find the truth in the Quran, then you will find it. It all depends on your intention.?

Doesn't this mean that if you want to be fooled you can be? Is truth subjective? I intend to kill and loot, I can find something in the Quran to justify my action. I intend to rape the wife of my non-Muslim neighbor, I find some verses to back up my intention. Heck, recently a Singapore Muslim found some verses in the Quran to justify incest with his daughters and he managed to convince his wives too. What kind of guidance is this that anyone can find anything based on his intentions?

Ahmadinijad the president of Iran finds verses in the Quran and thinks he is entitled to wipe Israel off the map, and Dr. Palazzi uses the same book and becomes a hard core Zionist who thinks Sharon was too soft. Why this book should be so confusing that each person can interpret it the way he wants? Shouldn't the book of guidance be clear and unambiguous? The laws made by humans are very clear. There is no ambiguity in them. Is Allah less intelligent than humans?

Is Dr. Palazzi's understanding of the Quran the correct one or Ahmadinejad's? Which one of the two is misinterpreting the Quran and therefore will go to Hell? The Jew hating Ahmadinejad or the Zionist Palazzi?

Surprise, surprise! It is Palazzi that is going to go to Hell, because he is the one who is misinterpreting the Quran. The clown Ahmadinejad who harbors the desire to wipe Israel off the map, understands the Quran correctly and hence he will go to Paradise. (Who wants to be in the same paradise with that fool?)

Palazzi is out to lunch. But how can an intelligent man like Palazzi be so confused? It is because the Quran lends itself to be interpreted in anyway one likes. The Quran is not a book of guidance; it's a book of alibis and excuses.

Mind is an amazing tool. You can walk on fire while thinking of cool moss. You can make yourself believe in anything. That is why we have so many people believing in so many absurd things. They let their minds to carry them away. We have people who think they have been abducted and raped by extraterrestrials and some even think they ARE extraterrestrials. These people act very sensible in every other way and there is no doubt

that they are honest. Are their experiences real? We need the light of reason to illumine our path or it is a sure bet that we will be lost in the darkness of ignorance.

I urge the friends, to write to the leaders of the Islamic world and challenge them to prove their faith. Make sure they are recognized and respected names. Then send your correspondence to be published in this site. We must kill this snake from its head. We must show to the Muslim youths that Islam is nothing but a pack of lies and all these big turbaned respectable "scholars" are a bunch of fools. I know many young Muslims read this site. I want them to see for themselves that they have been lied to. Their fathers have been lied to too. We have been misguided for generations and we perpetuated this misguidance passing it from one generation to another. Let it be our generation to stop this cycle of self deception.

I am too busy to debate with anonymous contenders. We should debate with recognized names. It does not matter if they run away. Dr. Palazzi ran away, Dr. Naik ran away, Mr. Hamid Entezam ran away, Mr. Abu Saleh ran away. Most of them will run away. That is fine. Let the Muslim youths see that their great scholars are a flock of chickens.

Let us make a list of these scared scholars and call it the Hall of Shame. If we can't convince Muslims to give up this madness with logics, we will be able to do it by putting them to shame. Today, calling someone "fascist" or "nazi" is an affront. Seven decades ago millions of people were proud to be called by these names. Islam will be defeated when calling someone "Muslim" is seen as an insult. That day is not far away. Once the word "Islam" becomes synonymous with stupid and terrorist, no intelligent person would want to be known with that filthy name. Look at this short video clip to be convinced of the stupidity of Islam and have a laugh. (How Muslim Women Eat?)

I also urge the Muslim youths to ask their favorite scholars to prove that my charges against Muhammad are wrong. You will see that they will decline. They bring all sorts of excuses to not get involved. That is because they are afraid.

A group of students in an Islamic country asked their Imam to answer to my charges. He complied for a while but soon he became aggressive and threatened the students with Islamic punishment (death) telling them not to read this site and not to pose the questions that are asked in this site. One of them wrote and said the truth has become very clear to all of the students. These youths will talk with other youths and the word will keep spreading. Tomorrow these students will start running the country. They will put these Mullahs in their place and will help the masses to awaken. We are building from the foundation.

Some of these so called scholars may ask for a face-to-face debate. That is a way to cop out while saving face. Ask them what they want to say to my face that they can't say it in writing.

I promise that if we continue this campaign discrediting Islam and Muslim scholars, in no more than a quarter of century, Islam will be defeated. Islam will fall, like communism fell. Mark my words today, even if you think I am nuts. If we all work together, especially the ex-

Muslims, we can get rid of Islam sooner than anyone can imagine. Iran is already anti Islamic. More than half of Iranians do not call themselves Muslims anymore.

We are demolishing Islam from its foundation. The edifice seems to be intact. But don't let appearances deceive you. This high tower of lies will come down at once.

Things don't happen on their own. We make them happen. The impossible becomes done deal for those who have a purpose in life. Mountains will move aside to make way for those who know where they are going.
